

SUPPLEMENTARY MATERIALS

Figure S1

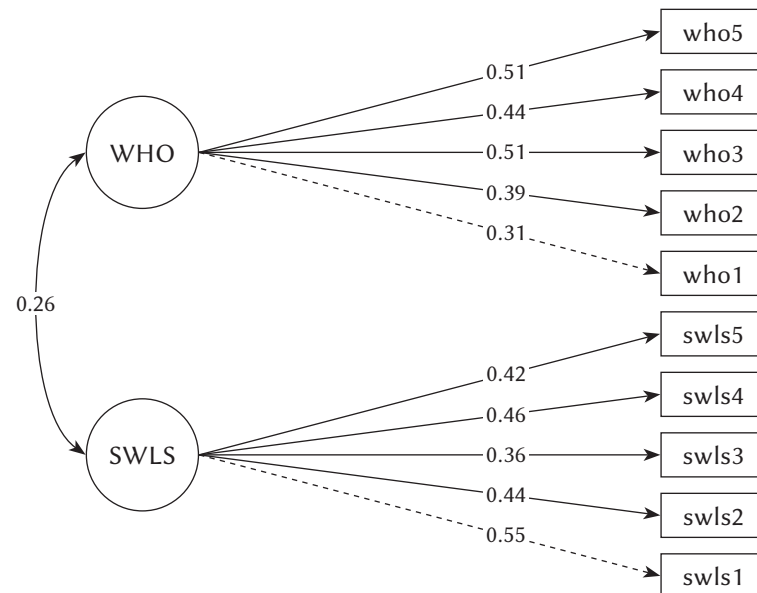

Confirmatory factor model of satisfaction with life (SWLS-3) and well-being (WHO-5)

Note. Standardized factor loadings are shown. Solid lines represent freely estimated parameters, whereas dashed lines indicate loadings fixed for model identification. All freely estimated factor loadings were statistically significant ($p < .001$). SWLS-3 – three-item Satisfaction with Life Scale; WHO-5 – World Health Organization Well-Being Index.

Figure S2

Confirmatory factor model of satisfaction with life (SWLS-5) and well-being (WHO-5)

Note. Standardized factor loadings are shown. Solid lines represent freely estimated parameters, whereas dashed lines indicate loadings fixed for model identification. All freely estimated factor loadings were statistically significant ($p < .001$). SWLS-5 – five-item Satisfaction with Life Scale; WHO-5 – World Health Organization Well-Being Index.

Table S1*Construct validity indices*

Model	Construct	AVE	HTMT
SWLS-3	SWLS	0.63	0.54
SWLS-5	SWLS	0.55	0.55
–	WHO-5	0.58	–

Note. SWLS-3, SWLS-5 – three- and five-item Satisfaction with Life Scale;
WHO-5 – World Health Organization Well-Being Index.
